**SACYR, LEADER IN SUSTAINABILITY IN SPAIN'S
INFRASTRUCTURE SECTOR, ACCORDING TO
SUSTAINALYTICS ESG RISK RATING**

- This prestigious rating, developed by Sustainalytics, a Morningstar company, assesses the performance of companies based on ESG criteria: environmental, social, and corporate governance.
- Sacyr ranks 4th place among construction and infrastructure companies internationally, and first among companies within the US\$1.6 billion to US\$1.8 billion market cap range.

Madrid, June 27, 2022.- Sacyr is the most sustainable company in the infrastructure and construction sector in Spain for the second consecutive year, according to **Sustainalytics' ESG Risk Rating** assessment.

Sacyr has improved its rank in this year's edition of Sustainalytics and has situated itself in the 'Negligible' risk level (the lowest), managing to reduce risk by 2.1 points compared to the rating obtained in 2021, up to 18.7 points.

This rating assesses the sustainability performance of more than 12,000 companies internationally. The ESG criteria analyzed include environmental, social, and corporate governance aspects of companies.

Sacyr ranks fourth out of the 306 infrastructure companies analyzed globally by this agency. It also ranks first place among companies within the US\$1.6 billion to US\$1.8 billion market cap range.

On a European level, Sacyr ranks third place, only behind Arcadis NV (Netherlands) and Instalco AB (Sweden).
